**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election with traverse of Group II, claims 12-20 in Paper No. 4 is acknowledged. The traversal is on the ground(s) that there is no evidence that the catalyst is suitable for isomerization or hydrogenation and that there does not exist an unreasonable search burden. If at the time of allowance the catalyst claims are consistent with the allowed process claim, the Examiner will consider rejoining the catalyst claims.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 12-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Brookhart et al., U.S. Patent No. 5,880,241 (hereinafter "Brookhart"). Brookhart teaches a process for

Art Unit: 1713

preparing copolymer using a substantially identical catalyst.

See Brookhart, col. 31, line 55 through col. 40, line 7.
